10. A window will open and you can use the slider to adjust your

summary either by paragraph or sentence. This can be saved

or you might even copy

and paste into a

document.

Once you have all of the letters drawn for what you want to create, then I'd suggest duplicating the letter shapes so that you have more than one of each letter. My first thought went to how amazing it would be to have younger students animate and insert voices for letters to demonstrate knowledge of letter sounds.
